Content Area	The content area is 1/8" (.125") from cut lines. Important artwork (especially text) should be placed inside this area, shifting may occur during production.
Cut/Trim Line	Keeping important artwork away from these edges ensures that your content won't be accidentally cropped during production.
Bleed Area	Any art (such as your background color) that should print all the way to the edge of the package should extend at least to these lines.
Seal Area	Important artwork (especially text) should not be placed in seal area. Tactile Varnish & Digital Foil effects should not be applied in these areas.
